Volume 7, No. 38

BRAINERD, MINN., THURSDAY, JULY 18, 1907

Price Two Cents

## CLEARANCE SALE!

Our great clearance Sale will afford a splendid opportunity to secure trustworthy merchandise at lower prices in many instances than the goods can be manufactured for at the present time.

Some are selling at 25 per cent off, some at 33<sup>1</sup>/<sub>3</sub> per cent off, and many at half their original prices.

All departments have accumulations of certain lines of goods—some soiled, some broken lines or odds and ends, but mostly surplusses, all of which must be positively closed out.

Strenuous efforts are made to reduce stock and have it "clean" when our Fall goods arrive. Until these BARGAIN LOTS are sold you will find it to your advantage to shop at **B. Kaatz & Son's** everytime you are in need of anything. New bargains are added from day to day.

The lots are so numerous and prices so low, it is impracticable to advertise them in detail; but in every section of the store you are sure to find bargains.

Of course, everything is for cash only and during this entire sale we will not make any credit charges, but we assure you your dollar will buy more than it ever did before.

This sale commences **Friday, July 19,** so come early and get your choice of our complete stock.

### STRIKE IS SPREADING.

Iron Ore Handlers at Duluth and Two Harbors, Minn., Walk Out.

Duluth, July 18.—The ore traffic on the Great Lakes will be tied up, half of the mines on the great Mesabi range closed down and the business of the two range railroads practically suspended by the strike of the laborers on the ore docks at Duluth and Two Harbors, which is now in progress, unless a settlement is reached at once.

The Duluth men, to the number of 750, have been out for two days and the Two Harbors men followed them at midnight.

The men ask an increase of 25 cents a day, pleading the increased cost of living. The company claims that it had already reached an agreement with the men by which they were granted an increase and agreed to work during the remainder of the year.

No ore has been shipped from Duluth since Saturday night. The train crews have been laid off and the open pit mines where mining is done by steamshovels are closed down. The underground mines are still being worked, the ore being placed in stock piles.

If the strike continues it will affect thousands of men. The train crews, vessel crews and mine workers will all suffer from enforced idleness.

### Threatens Steel Industry.

Cleveland, July 18.—The strike of the iron handlers at Duluth and Two Harbors threatens to seriously embarrass the iron and steel industry if the tie-up should last more than a few days.

### RULER OF THE ELKS.

John K. Tener of Pennsylvania is Elected.

Philadelphia, July 18.—The complete and official returns of election in the grand lodge of Elks held in this city are announced as follows: Grand exalted ruler, John K. Tener of Charleroi, Pa.; grand treasurer, Edward Leach, New York; grand esteemed loyal knight, W. T. Teckie, Dowagiac, Mich.; grand esteemed lecturing knight, B. Raymond Grey, Frankfort,

Ind.; grand esteemed leading knight, John D. Shea, Hartford, Conn.; grand secretary, Fred C. Robinson, Dubuque, Ia.; grand trustees, Thomas B. Mills, Superior, Wis.; Thomas F. McNulty, Baltimore, and Mayor Charles C. Schmidt, Wheeling, W. Va.; grand tyler, James Foley, and grand inner guard, A. M. Taylor.

During the session of the grand lodge it was decided to establish a flag day for Elks, on June 14. A resolution was adopted calling for the appointment of a committee to devise ways and means to punish outside users of the Elk emblem. A subsequent resolution calls for the appointment of a commission to confer with congress to find means to prevent the use of the emblem.

The Memphis lodge was authorized to prosecute the negro Elks of that city.

### BOSTON IS SELECTED.

American Federation of Catholic Societies to Meet There Next Year.

Indianapolis, July 18.—After electing officers and selecting Boston as the place of meeting next year, the American Federation of Catholic societies adjourned. The movement for a Catholic Y. M. C. A. was put off until the next convention. A resolution was adopted instructing the president to appoint a committee of five members to work on a plan along the lines of the resolutions adopted at last year's meeting at Buffalo. The report of the committee will be acted on at next year's gathering.

Officers were elected without a contest of any kind.

The convention adopted a strong resolution opposing the basic principles of socialism.

### Glove Novelty.

The latest London fashion in gloves—or mittens, for the fingers remain uncovered—comes from Germany. This new mitten is said to be now worn by all the ladies of the German court, costs about \$500 and is made of gold network, with precious stones ornamenting the back. Only the left hand is covered in this way.

### ACCIDENT AT A CIRCUS.

Section of Seats Gives Way and Several Persons Are Injured.

Cleveland, July 18.—A section of seats gave way at a show in the circus grounds on Scranton avenue, precipitating 100 people to the ground. No one was killed but from fifteen to twenty persons sustained injuries of a more or less serious nature.

Miss Kitty Boyle, who suffered a broken leg, and Mrs. Hyle, injured internally, are among those seriously hurt.

A disastrous panic was averted by the band, which played throughout the accident and diverted attention from that quarter.

### CLOUDBURST AND RAIN.

Cause Heavy Damage to Railroad Property.

Elkins, W. Va., July 18.—A cloudburst and heavy rains have caused such damage along the Western Maryland railway between Thomas and Elkins that it will not be possible to operate that portion of the road for at least twenty-four hours. All telephone and telegraph wires are down between Parsons and Elkins. Between Douglas and Thomas the tracks are washed out for a quarter of a mile. Rain is still falling and railroad officials fear greater trouble.

### Can This Be So?

Little Girl (telling of the Garden of Eden)—Yes, mummy, Adam and Eve lived very happily there till the evil one came in the form of a servant.—Canadian Courier.

### The Charming Woman

is not necessarily one of perfect form and features. Many a plain one who could never serve as an artist model, possesses those rare qualities that all the world admires; neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth velvety skin, beautiful complexion. Guaranteed at H. P. ## RULER SUMMONS ITO

Korean Emperor Sends for the Japanese Official.

### BELIEVED HE WILL ABDICATE

Cabinet Insists That the Emperor of the Hermit Kingdom Retire in Favor of the Crown Prince—Urged to Apologize to Japan.

Tokio, July 18.—The emperor of Korea has sent for Marquis Ito. It is believed that a final decision on the request for the emperor's abdication soon will be arrived at, when the ministers appear in a body before his majesty. The report from Seoul that the emperor attempted to seek refuge in a certain consulate is officially discredited, but it is thought that evidently intriguers are at work on a plan to remove the emperor from the palace. A rumor that the emperor has privately ordered the palace guards, 100 strong, to shoot any suspicious persons, is causing dismay to those not concerned in the plot.

### ASKED TO ABDICATE.

Korean Cabinet Demands Retirement of Emperor.

Seoul, Korea, July 18.—Following a cabinet meeting, which lasted four hours, the premier had an audience with the emperor in the evening continuing for three hours. It has transpired that the premier made a strongly worded representation of the gravity of the situation caused by his majesty's sending a delegation to the peace conference at The Hague. He boldly pointed out the necessity for the emperor's abdication in favor of the crown prince and of his proceeding to Tokio and apologizing to the emperor of Japan. The Korean emperor made no definite reply.

On retiring from the palace the premier immediately called another cabinet meeting, which lasted until 2 o'clock in the morning. It is believed that the ministers will insist on the abdication of the emperor at all risk.

The request made by the premier of Korea that the emperor abdicate apparently is the beginning of the end of this ancient empire and the inauguration of a closer control by Japan than she has exercised since the treaty of Portsmouth, recognizing her predominant influence in the Hermit kingdom as one of the fruits of her victory over Russia.

### BIG STEAMER BURNED.

Coastwise Vessel Catches Fire and Is Destroyed.

Savannah, Ga., July 18.—The big coastwise steamer Alleghany, one of the crack vessels of the Merchants and Miners' Transportation company, caught fire as the vessel, outward bound from Savannah to Philadelphia, was passing Tybe and was destroyed by the flames. All of her thirty-two passengers and crew were saved.

The first cry of fire sent several excited passengers to the rail and the members of the crew prevented a number from jumping overboard in a mad desire to leave the burning vessel.

After the first few minutes order was restored and in the ship's boats and in boats sent out from Fort Screven, every person was brought ashore. Captain Freeman and five officers were the last to leave the Alleghany and seemed to be coming from a sheet of flames. All the persons saved were brought back to Savannah on a government dredge, leaving the hull of the steamer still burning.

"The ship's gone; we saved nothing," was Captain Freeman's brief report as he led the way from the boat to the dock his vessel had left a few hours before. A few suit cases scattered among the passengers represented the total salvage.

### GIRL COMMITS SUICIDE.

Throws Herself From a Window of the Masonic Temple in Chicago.

Chicago, July 18.—While talking to friends on the fifteenth floor of the Masonic Temple, Miss Annie Marmolee, a stenographer, deliberately walked to an open window and without warning threw herself over the ledge and was dashed to death on the stone pavement of the rotunda, 150 feet below. The force of the fall was so great the body of the girl was mutilated beyond recognition. No cause for the suicide is known.

### Five Persons Injured.

Cincinnati, July 18.—A fast passenger train on the Baltimore and Ohio railway collided head on with the Walton accommodation on the Queen and Crescent route near the junction in this city and five people were injured. The engines of both trains were demolished.

### Our Clearance Sale

Let us explain fully what we mean by it: No buyer is ever able to buy just the right amount of everything. If he buys too little you are told that the store is "out" of this or that as you near the end of each season. If he buys too much it is frequently necessary to dispose of this surplus even at a loss if the stock be kept in good order. Our Clearance sale to be opened Saturday is to dispose of surplus purchases. Tomorrow afternoon boys will place an itemized list of articles to be offered at your door. We will have other things on special sale but for the most part this advertisement referred to will contain a list of articles offered. We make this frank explanation that you may know what to expect and a careful perusal of the "ad" will reveal bargains that we are sure will attract your attention.—Fact is, you'll not find equals.

### TRIAL OF LOUIS GLASS.

Bribery Case at Frisco Reaches a Crucial Stage.

San Francisco, July 18.—The trial of Louis Glass for bribery reached a crucial stage when the prosecution made its first attempt to begin the introduction of testimony of ten or more supervisors other than Boxton that their votes were bought by Theodore V. Halsey, acting under direction of Vice President Glass of the Pacific States Telephone company. Glass at the present time is being tried for the bribery of Boxton. The prosecution contends that it has the right to lay before the jury the inference of his guilt contained in the proof of his having bribed other supervisors like Boxton. The defense denies this right, mainly on the ground that the state is not privileged to prove other crimes in an effort to establish the crime on trial.

### RESULT IN THREE DEATHS

Cloudburst and Electrical Storm at Zanesville, O.

Zanesville, O., July 18.—A cloudburst and electrical storm in this city resulted in three deaths and inestimable property loss. Tabor Davis was drowned while fording a creek at Musseville, and a man named Miller was drowned in the Adams mills basin, where he was fishing. John Kline, a miner of Connelville, was killed by lightning at South Zanesville.

## FOLLOW THE CROWDS

All Roads Lead to L. M. Koop's  
Big Sale This Week

Friday and Saturday Will be Ban-  
ner Days for All Who Attend

If the big Bannum show would have opened up in L. M. Koop's store room this morning it couldn't have attracted more interested and cultured attendance than was on hand for the promised opening of the best and biggest bargain sale in town. Every article at the low advertised price was on exhibit and by noon the entire stock was badly mixed and showed signs of attack. Many bought big bundles of Dry Goods, Shoes, Underwear and ready-to-wear garments while others bought a six months supply of Linens, Embroideries, Laces, Gloves and Ribbons. A lady who is quite prominent in the city and who is known to be a shrewd and able judge of values in all lines, as she buys for a large family, and though quite well to do, does not believe in throwing money away, was heard to remark to a lady friend that she "had attended every special sale held in Brainerd in the past fifteen years" and added "This is without a doubt the best sale and the most genuine bargains in high grade goods I ever attended in this town," and you will say the same if you get here early and carefully look through this big store full of all that's good to wear for women, miss and child.

This sale of L. M. Koop's is limited as to time and quality—many lines are very low and the early buyers will get the best choice of assortments, styles and sizes.

L. E. Garrison has been home for a short visit. He has received his new instrument, and has gone away for some time.

Mae Hammett passed through Esdon on her way to Foley from Bay Lake last Friday.

Mr. and Mrs. Will Rosenkranz and Miss Carrie Rosenkranz took supper at M. L. Hammett's last Sunday.

Jack Grey was a caller in Esdon Sunday.

Harry Avery came home last Friday. Myrtle Hammett made a short visit at home Sunday.

Helen Hammett spent a few days at Clearwater lake last week with her sister, Mrs. W. Rosenkranz.

Wild strawberries are at their best, and a good many are putting them up for winter use.

The north Bay Lake road has been worked (?) and has been nearly impassible for the last two weeks. We wonder if it is supposed to be finished or can we hope for a change. It was fine before.

It is reported that the present school board have bought and paid for the wood for next winter, also hired a teacher. Isn't that rather rushing business?

School meeting next Saturday.

There is being some much needed work done on the roads in Graves lake district.

Minnie and Laura Bock have gone to Bay Lake to pick berries.

MUSIC AND DRAMA

Frank Mahara's Minstrels

The minstrel show last night was a  
successful performance and was greeted  
by a large house. Good singing of solo,  
quartet and chorus characterizes the  
program. John Hill rendered an old  
favorite "Asleep in the Deep," to the  
delight of everyone. Mr. Hill has a  
splendid deep, resonant bass voice. Not  
less popular with the crowd was Ed-  
ward Frye, in the Zulu travesty, "A  
Dream of Dahomey."

Leroy Bland deserves special men-  
tion in his Indian characterization of  
Big Chief and Nola exhibiting the truly  
romantic and passionate character of  
the noble Redman.

John Pamplin is a very prince of jug-  
glers and introduced several new fea-  
tures that amazed the audience. All his  
acting is marked by alertness, strength  
and masterful precision. Either Mr.  
Pamplin's or Mr. Bland's performance  
is alone worth the admission price.  
Among other features the unicyclist  
Count deRobero, has a place, as also  
James Harris, with his hoop rolling.

The show is really good and deserves  
the patronage of the theatre going pub-  
lic.—Bulletins Edmonton, Alberta, July  
21, 1906.

Congressman Lindbergh Expresses  
Some Ideas of the First Practi-

The Osakis Review of July 11, pub-  
lished by C. H. Bronson, contains the  
following:

Congressman C. A. Lindbergh, of  
Little Falls, arrived at Osakis from  
Alexandria Tuesday noon and remained  
in this village until Wednesday noon  
when he left for Sauk Centre to ad-  
dress a farmers' and dairymen's meet-  
ing in that city. Mr. Lindbergh is just  
out from the Battle Creek sanitarium  
where he spent the past month taking  
treatment for blood poisoning caused  
by the bite of a poisonous wood tick.  
The congressman is now feeling fine  
and is fast regaining his weight and  
strength.

While at Osakis Mr. Lindbergh was  
a guest at Hotel Idlewild where he  
was visited during the afternoon by  
farmers who were interested in rural  
route matters. In the evening the con-  
gressman met a number of Osakis busi-  
ness men who called at the hotel to pay  
their respects.

In answer to the Review's inquiry as  
to how he liked the work, Congressman  
Lindbergh said:

"The work I like because it gives an  
opportunity in a measure to meet and  
deal with some of the practical neces-  
sities of the people.

"The first practical work is the ne-  
cessities that are special to the people  
of the district such as arise with refer-  
ence to pensions, postoffices, postmas-  
ters, public lands, etc. About all one  
can do in these is to secure activity in  
the departments handling these mat-  
ters. The work is not small in a dis-  
trict so large as the Sixth. It is often  
necessary to visit the different depart-  
ments and the several government  
buildings are scattered over Washing-  
ton in such a way as to take up much  
time in getting from one to another.  
It is easy to lose a day on a question  
that a constituent would think a few  
minutes should dispose of.

"In order to secure the most influ-  
ence in behalf of the people of the dis-  
trict it is necessary to have the 'pow-  
ers' at Washington understand that the  
people are heart and soul in co-opera-  
tion with their representative. That  
is a thing that grows if the man is right  
and has the ability. If he has not, no  
time should be lost in removing him.  
Roosevelt's capacity to get results in  
national matters is because the people  
are heart and soul with him and so it  
should be all down the line.

"There are nearly 400 congressmen  
and the average man among them never  
rises higher in his work than to deal  
with the things that directly concern  
his district. In order to have the most  
influence for his district he should se-  
cure a recognition as having an active  
interest in national affairs. It takes  
time for a congressman to do that,  
even if he has the ability, because he  
must first secure the opportunity.

"There has never been a period when  
so many vital, intricate questions were  
up for consideration at one time and  
yet newspaper men will for a long time  
to come be able to fill your columns  
with thoughts on live economical and  
political problems, and you should be  
happy in the thought that you have  
readers in your subscribers, as the pub-  
lic is now an active, thinking, wide-  
awake humanity."

TO BE FIVE ENTERTAINMENTS

Are Under the Management of  
the Midland Lyceum Bureau  
and Are of High Grade

The Ladies' Aid society of the First  
Congregational church has made ar-  
rangements with the Midland Lyceum  
bureau, of Des Moines, Iowa, for a  
course of musical, recitative and oratori-  
cal entertainments to be given in this  
city during the coming fall and winter.  
The entertainments are all high grade  
and should and doubtless will give ex-  
cellent satisfaction. The entertain-  
ments agreed upon are as follows:

"The Meistersingers Male Quartette,"  
as its name indicates is a quartette of  
male master singers. The personnel  
the coming season is announced to be  
John Hopkins, first tenor; Parley S.  
Breckenridge, second tenor and accom-  
panist; C. G. Marshall, baritone and  
crayon artist; L. H. Gerdardt, basso  
and reader. They certainly have some  
press notices that could not be beat, as  
well as strong endorsements from  
Chautauqua managers.

"The Lucey De Bona Combination"  
consists of T. Elmore De Lucey, reader  
and Signor Francesca De Bona, harpist.  
They also have very high recommenda-  
tions and will have a pleasing enter-  
tainment.

Everett Kemp, in interpretive re-  
citals presents Holland's beautiful  
story "Sevenoaks" or McCarthy's "If  
I Were King."

"The Midland Concert company" is  
composed of Fredrika Gerhardt, con-  
tralto, Rachael Steinman, violiniste,  
Olga M. Miller, reader, and May Dellen,  
mezzo and accompanist. They have  
been referred to as the \$60 company  
giving a \$150 program.

Last and by no means least is Elliott  
A. Boyl, orator. He is said to be a  
master of word painting and dramatic  
oratory. He has three subjects, "The  
Seen and the Unseen," "The Making  
of Men" and "Books and Life."

CONGRESSMAN IN TOWN

Hon. C. A. Lindbergh, Congressman  
From the Sixth District, Returns  
From Northern Trip

Congressman Lindbergh, of Little  
Falls, returned today from an extended  
trip to the northern part of the state  
and was in Brainerd for a couple of  
hours. Mr. Lindbergh is endeavoring  
to get in touch with his constituents  
and his recent trip took him to the In-  
dian reservations that lie in his dis-  
trict. He visited Cass Lake and Walker  
and at the latter place was met by In-  
dian Agent Frater and spent some time  
with him at the agency at Onigum.  
Mr. Lindbergh speaks in the highest  
terms of Mr. Frater and says he is  
making an ideal official, one who com-  
mands the respect and confidence of  
the officials at Washington and also the  
wards of the government of whom he  
has charge.

Congressman Lindbergh will visit  
every portion of his district before con-  
gress convenes again and will endeavor  
to learn from a personal standpoint  
the needs and wishes of the people in  
order that he may be better qualified  
to act on matters coming before him  
when they are presented. The gentle-  
man left on the 1:30 train for his home.

Pens Used in 1906

Special to THE DISPATCH.  
St. Paul, Minn., July 18.—At the  
National Stationers Convention now in  
session here, it was yesterday stated  
by Mr. Waterman, of the L. E. Water-  
man company of New York, makers of  
Waterman's Ideal Fountain pen, that  
their concern alone sold last year pens  
for which consumers invested over  
\$2,225,000 of which nearly two-thirds  
were sold by stationers. This well  
illustrates the rapidly increasing use of  
fountain pens.

Wednesday night's game between  
the Peoples and Congregational teams  
was the first tie game of the season.  
It was called at the close of the fifth  
inning because of darkness. The work  
of both teams was streaked, there be-  
ing three shutouts by the Peoples  
church and two by the Congregational.  
The Peoples team took a batfist in the  
second inning getting six of their seven  
scores while the Congregationals got  
three each in their second and fifth.  
The battery for the People was Black  
and Wilson and that for the Congrega-

Exploit in Piping Oil

Officials of the oil plant of the Na-  
tional Tube company at Lorain, O., are  
feeling jubilant over the fact that the  
plant at Lorain has accomplished a  
feat that the other plants of the com-  
pany failed on, says the Cleveland  
Plain Dealer. Two miles of rifled pipe  
are being turned out at Lorain every  
day for western oil concerns, the pipe  
being made and rifled in one process,  
other mills requiring two, which makes  
the expense greater. The pipe is the  
invention of a California man, and the  
bore inside gives the oil a rotary mo-  
tion, keeping it warm enough to main-  
tain the flow, something hitherto im-  
possible. It has been found necessary  
to heat oil at intervals of several miles  
to keep it flowing.

UNKNOWN HERO DEAD

Prevented Greater Disaster on  
Battleship Georgia.

DIED TO SAVE COMRADES

When Powder Flamed in Turret a  
Loader Rammed Home an Exposed  
Charge and Lost His Life Instead  
of Trying to Escape.

Boston, July 18.—On board the Geor-  
gia in Boston harbor Captain Henry  
McCrea told the story of the disaster  
on board the battleship on Monday,  
which cost the lives of nine men of  
the United States navy and caused in-  
jury, in some cases probably fatal, to  
thirteen others. Captain McCrea said:  
"Probably one little act or rather  
one great act of one of the men pre-  
vented a far greater disaster. I don't  
know his name. He's dead. He and  
one other stood by the second gun  
that had just been loaded. The last  
powder bag that had been put in was  
protruding a little from the gun. When  
he saw the flash, instead of dashing  
for the ladder to save himself, he  
crowded home the charge in the gun  
and with the help of the other man  
got the gun closed before the flame  
reached the bag. If the flame had  
touched that bag there would have  
been an awful explosion, for the pow-  
der was confined in the gun and  
would not have flashed as the other  
did, but would have exploded. Not a  
man in the turret would have been  
left alive, whatever other damage  
might have been done. That man  
gave his life for the others.

"I am told President Roosevelt has  
inquired about a man that gave his  
life in closing the shutter from the  
ammunition room to save the ship  
from blowing up. It would be very  
wrong to have a story like that go  
out, because I cannot find that there  
is any foundation for it, or need for  
a man to make any attempt to do any-  
thing of the sort. But if the presi-  
dent wants heroism let him look up  
this brave man who stood by his gun  
to save the rest.

### GEORGE BY THE POPE.

Promulgated Against Ultra Liberal Catholic Campaign.

Rome, July 18.—The first move of the Vatican against the ultra liberal Catholic campaign, in which among others a secret international league is said to be engaged, has taken the form of a decree promulgated by the pope specifically condemning sixty-five statements taken from the writings of leading Catholic modernist writers, whose names, however, are not given. Among the statements condemned is one approving a total disregard of the propositions of the index expurgatoris and of Roman Catholic congregations.

## EVIDENCE COMPLETED

No More Testimony Will Be Taken in Haywood Case.

### JUDGE WOOD'S PROPOSITION

Court Would Strike Out Evidence Introduced by the Defense to Prove a Conspiracy on the Part of the Mine Owners of Colorado.

Boise, Ida., July 18.—The state of Idaho rests content with the evidence it has introduced to prove that William D. Haywood, the secretary-treasurer of the Western Federation of Miners, conspired to kill and therefore murdered Frank Steunenberg, a former governor of the state. William D. Haywood through his counsel will rest his case with the jury so far as evidence is concerned. Possibly some witnesses will be called in rebuttal but Haywood's counsel announce that the case may close without further evidence. Judge Fremont Wood has invited argument on his own proposition to eliminate certain evidence from consideration by the jury and probably a day will be taken to present the views of both sides as to the instructions to the jury. On Friday argument is expected and the last stage of the trial will have commenced. After having dismissed the jury Wednesday afternoon Judge Wood stated his opinion that the evidence introduced by the defense to prove a conspiracy on the part of the mine owners by showing the deportation of union miners from the Cripple Creek district of Colorado during the strike of 1903 and 1904 was not material to the issue involved and should not be submitted to the jury.

#### Should Be Eliminated.

On the other hand, he said, the showing by the state that Steve Adams was concerned in the killing of two men in the Couer d'Alene district did not appear to the court to be germane and should be eliminated. He announced, however, that the court would hear argument on these points. Further, the court asked that requests for instructions be submitted at once and arguments on these instructions are next in order.

Judge Wood has already stated that by putting counsel on notice in the main points of which he would instruct the jury, he hopes to considerably shorten the arguments.

Another announcement by the court was a determination to conclude the case within the next week. Judge Wood said he would hold three two-hour sessions daily during the arguments. E. F. Richardson protested against this, but he met with no encouragement.

J. H. Hawley will open the argument for the state and E. F. Richardson for the defense. Clarence Darrow will close in behalf of Haywood and the final argument will come from Senator Borah.

The last day of the state's innings in the Haywood trial opened with the statement by Richardson that he desired the court to order D. C. Scott, William Dewey and J. G. Rutan, witnesses who have testified in rebuttal for the state, to remain within the jurisdiction of the court. This was afterward explained on the ground that counsel for the defense was considering the advisability of issuing certain warrants charging state's witnesses with perjury. Nothing was done during the day, however, and Clarence Darrow said it was doubtful if any such steps would be taken.

#### Two Witnesses in Rebuttal.

The state called two witnesses in rebuttal Wednesday, notwithstanding Mr. Hawley's statement that eight or ten witnesses remained. At the last moment the prosecution decided not to call mine owners or Pinkerton detectives, believing this would strengthen their case before the jury. As a result of this decision a number of interesting witnesses will not be heard. Bulkeley Wells, formerly adjutant general of Colorado and recently elected railroad commissioner in the state, has left Boise. He was in command of the militia called out during the labor troubles in 1903 and 1904 and was the man who dug up the bomb found where Orchard said he placed it at Judge Goddard's gate.

Captain James McParland, the superintendent of the Western division of the Pinkerton detective agency, who it was expected would be one of the most picturesque witnesses, was not called. Captain McParland has had charge of the case since the arrest of Orchard.

The witnesses examined were from Colorado and gave vivid accounts of the conditions existing around the mines.

O. M. Sackett, employed at the Smuggler Union mine at Telluride, had an intimate knowledge of conditions resulting from the struggle between the members of the Western Federation of Miners and the owners of the mines. No amount of severity on the part of E. F. Richardson changed Sackett's positive assertion that the mob of the Citizens' Alliance of the Cripple Creek district took the law into their own hands as a last resort and that this organization was made up of good citizens of the district. He justified the deportations on the ground that they were necessary and because the citizens had reached the conclusion that men who refused to work themselves or permit other people to work should be sent away. He admitted that some of the deported men were innocent of wrongdoing, but

stated positively that they were allowed to come back when the injustice was discovered. Sackett said of his own knowledge and on information he knew of a number of murders and outrages committed by the union miners and the calling out of the militia and declaration of martial law were necessary to the preservation of the property.

The last witness of the day and the last witness of the state was William Stuart, a Scotchman, red-bearded and retaining the burr of his native language on his tongue. He was a miner in the Cripple Creek district during the troubles and told a terrible story of maltreatment at the hands of miners who had warned him that he would have to take the consequences if he went to work as a "scab." With native stubbornness Stuart went to work, however, and with native wit he told the consequences.

Mr. Richardson dismissed the witness with the words: "That's all."

Stuart wheeled out of the witness chair and as he stepped down he said quietly: "Humph, well, there's more if ye want it," and with this the prosecution rested.

### HAU PLACED ON TRIAL.

Defendant in Murder Case Seeks Refuge in Silence.

Karlsruhe, Germany, July 18.—A case that has attracted attention on two continents came up for trial here when Karl Hau, formerly professor of Roman law in George Washington university, Washington, D. C., was brought before the bar on the charge of having murdered his mother-in-law, Frau Molitor, a wealthy resident of Baden-Baden, in that city Nov. 6, last.

The selection of a jury occupied only ten minutes, after which the presiding judge put Hau through a searching examination that lasted several hours. Hau was unable or unwilling to explain many of his actions with regard to which the prosecution has pursued a careful investigation, such as the wearing of disguises and their secret disposition and the sending of telegrams to himself. He declined to explain his connection with a telegram asking his wife's mother to come to Paris and refused to answer various questions regarding his domestic relations, although warned by the judge that he was prejudicing his case.

Altogether the testimony was considered unfavorable to the defendant, the judge declaring that one provision of the will left by Hau's wife, who recently committed suicide, which he read and which provided that her little daughter should assume another name, indicated that Mrs. Hau was convinced of her husband's guilt.

Olga Molitor, who was with her mother when the murder was committed, told of the shooting, which was done by a man who ran away so quickly that she was unable to recognize him in the dark.

### WILL NOT GET THE LIMIT

Mrs. Campisciano Will Probably Receive a Light Sentence.

Hahnville, La., July 18.—That Mrs. Campisciano, one of the women accused of the murder of little Walter Lamana, the kidnapped New Orleans boy, will probably not receive an extreme sentence became evident when the prosecution closed its case after less than two days of evidence taking without having directly connected the woman with the crime. Of the other three prisoners the woman's husband and Gendusa, go-between for the ransom money, have had strong circumstantial evidence given against them. Of the remaining prisoner, Tony Costa, it has only been testified that he kidnapped the child in New Orleans and gave his wagon to the gang which carried the little fellow away and later strangled him.

The defense has started its rebuttal and it appears likely that the case soon will go to the jury.

The prosecution went into detail as to the go-between, Gendusa's actions, showing that he reduced the ransom price from \$6,000 to \$2,000. Friends of the Lamana family tried to raise money and offered \$500, which they said was all they could get to save the boy. Gendusa refused this sum.

### CAID MACLEAN GETS AWAY

Suggested That Raisuli Connived in the Escape.

Tangier, July 18.—Aided by sections of the Beniros and the Benimanzour tribes, Caïd Sir Harry MacLean has succeeded in escaping from the hands of the Bandit Raisuli. He has taken refuge in the inviolable sanctuary of the territory of the marabout of Zaoual Younsidi. It is suggested that Raisuli connived in the escape of the caïd as the best way out of a difficult situation.

### HEAT AND HUMIDITY.

Cause Over a Score of Deaths in Thirty-six Hours at Pittsburgh.

Pittsburgh, July 18.—Ten fatalities due to the intense humidity and oppressive heat wave occurred here, making over a score of deaths within the past thirty-six hours. The suffering in the mills and manufacturing districts is worse than has been experienced for years.

#### Blow Breaks Miner's Neck.

Springfield, Ill., July 18.—With one blow of his fist on the jaw, Harry McGurk, a prizefighter known as "Red" McGurk, broke the neck of David Brennan, a miner, in the house of Annie Vancel. Brennan died before physicians reached him. McGurk telephoned the police what he had done and officers arrested him. He refused to talk.
